

YANCY P. LIQUIRAN

FULL STACK WEB DEVELOPER | LARAVEL AND VUE.JS

Gigaquit, Surigao del Norte, Philippines | +63 994 126 2581

yancyliquiran2001@gmail.com | m9g1c19n.github.io | github.com/M9G1C19N

PROFILE

Web developer and IT professional with two years of hands-on Laravel experience, building business applications for clinics, hospitality, local government, and education. Works across requirements, database design, development, deployment, and user training. Former IT Manager and IT Instructor, comfortable troubleshooting systems and explaining technical issues clearly. Uses AI coding tools to support implementation, with responsibility for reviewing code, debugging, and testing.

TECHNICAL SKILLS

Development: PHP, Laravel, JavaScript, Vue.js, Inertia.js, Blade, HTML, CSS, Tailwind CSS, Bootstrap, C#, .NET WinForms

Data and integrations: MySQL, SQL Server, database design, migrations, REST APIs, authentication, roles and permissions, SMS integration

Tools and operations: Git, GitHub, Railway, Cloudflare, R2 storage, systems administration, networking, hardware and software troubleshooting

SELECTED PROJECTS

ClinicHub | St. Peter Diagnostics & Laboratory | 2026

Built a clinic management system covering online booking, patient queues, billing, laboratory results, and medical certificates. Used Vue.js, Laravel, and MySQL. Supported deployment through Cloudflare.

Website: saintpeterdiagnosticsandlaboratory.com

IsleReserve | Bobon Sands & Cays | 2026

Developed a resort booking platform with a guided reservation flow, guest portal, admin dashboard, payment step, SMS notifications, and an AI chatbot. Used Laravel, Vue 3, Inertia.js, and MySQL; deployed on Railway with Cloudflare R2 media storage.

Website: bobonsandsandcays.com

SmartAttend | RFID Attendance Monitoring | 2026

Built an RFID attendance system with kiosk scanning, a live dashboard, subject and event tracking, weekly analytics, and configurable grace periods. Used Vue.js, Laravel, and MySQL.

ILIMS | Legislative Records Management | 2025

Developed a records system for the LGU Claver Legislative Office covering sessions, ordinances, resolutions, committee records, and audit trails. Used Laravel, Blade, PHP, and MySQL.

LGU BPFA | Building Permit Fee Assessment | 2024

Built a permit fee calculation and payment tracking system for the Municipality of Claver Engineering Department, including PSA compliance reports. Used Laravel, Blade, PHP, and MySQL.

PROFESSIONAL EXPERIENCE
